### Objective

---

Junior Web Developer with strong proficiency in Python, FastAPI, and JavaScript, complemented by expertise in Tailwind CSS, PostgreSQL, and REST API development. Experienced in building responsive interfaces, JWT-secured backend services, and database-driven web applications. Highly passionate about building scalable, production-ready backend systems and intuitive user interfaces while collaborating on impactful software solutions.

### Skills

---

#### Technical Skills:

- Languages: Python, JavaScript, HTML5, CSS3
- Libraries / Frameworks: FastAPI, SQLAlchemy, Tailwind CSS, Bootstrap
- Technologies: PostgreSQL, MySQL, SQLite, REST API, JWT Authentication
- Tools: Git, GitHub, GitHub Pages

**Soft Skills:** Quick Learner, Problem Solving, Teamwork, Adaptability, Responsibility

### Projects

---

#### Expense Tracker API – JWT-Secured RESTful Financial Management Service

[GitHub](#)

A secure REST API that enables users to record, categorize, and manage personal expenses efficiently

- Engineered CRUD endpoints for expense records using FastAPI and SQLAlchemy, reducing response latency for data queries.
- Implemented robust JWT authentication and password hashing to secure endpoints and protect user data access.
- Structured relational schema design and data persistence using PostgreSQL for high reliability and storage efficiency.

**Technologies:** Python, FastAPI, SQLAlchemy, PostgreSQL, JWT

#### Task Manager – Interactive Task Planning and Tracking Application

[GitHub](#) | [Live](#)

A responsive web application designed for real-time daily task planning and progress tracking.

- Built interactive state management features to create, complete, and delete tasks with real-time counters and timestamps.
- Designed a mobile-first, adaptive interface ensuring 100% layout compatibility across all modern device viewports.

**Technologies:** JavaScript, HTML5, CSS3, Web Storage API

#### Movie Collection API – Lightweight Media Cataloging Service

[GitHub](#)

A lightweight backend service designed for creating, updating, and managing a personal movie collection database.

- Built structured RESTful endpoints with FastAPI to manage full catalog operations seamlessly.
- Configured SQLite database bindings with fast query execution for rapid local data retrieval.

**Technologies:** Python, FastAPI, Pydantic, SQLite

#### Food Recipes Website – Responsive Culinary Content Platform

[GitHub](#) | [Live](#)

A responsive web interface built for food enthusiasts to discover featured recipes and trending dishes.

- Developed dynamic mobile and desktop navigation bars with smooth layout switching using Tailwind CSS.
- Enhanced visual engagement by styling gradient UI components and smooth hover interactions.

**Technologies:** HTML5, Tailwind CSS, JavaScript

### Education

---

Gausul Azam Maizbhandari Polytechnic Institute

2024– Present

Diploma in Computer Science & Technology (6th Semester | CGPA: 3.93/4.00)

### Extra Curricular Activities

Competitive Programming & Problem Solving, Solved 37+ problems on Codeforces, 14+ on CodeChef, and earned a 4-Star Badge on HackerRank.

### Language

---

English (Professional Working), Bengali (Native)
